

SPRING ARRIVES ON WINGS OF STORMS

Snow, Sleet and High Wind
Do Much Damage in Central and Southern States

MANY DEATHS REPORTED

Storm of Tornado Intensity
Causes More Than 60 Deaths
And Hundreds are Injured

PROPERTY DAMAGE ENORMOUS

More than sixty persons are reported killed and hundreds were injured, some mortally, by a storm of tornado intensity which raged over central, western, southern and parts of eastern state yesterday.

Property damage will run into the millions. Definite information has been received, accounting for more than forty persons dead, with reports from points temporarily cut off from wire communication by the storm adding hourly to the list.

Reports from Alabama show the loss of life was heaviest in that state, the number of dead there being already definitely placed at 23, with additional fatalities reported but not confirmed.

The town of Lower Peach Tree was practically wiped out. Two are dead in Indiana, two in Tennessee, three in Ohio, two in New York, one in Michigan and two in Louisville. Accompanying the death list are estimates of injured totalling more than a hundred, with additions coming in at brief intervals.

Rages Across Country.
Coming out of the southwest early Friday morning just as spring ushered in the storm with startling suddenness diagonally across the country from northern Texas to western Pennsylvania and New York, following the Mississippi valley and moving northeastward across the big lake to the Great Lakes region.

Shifting winds of great violence accompanied in various sections by snow, sleet and hail, characterized the storm, easily the most destructive of the year, and rarely equalled in the extent of its scope and damage.

Buildings toppled before the blow in nearly a dozen different states and death lay in its wake.

The property loss was great all along the storm track. Besides demolishing or unroofing buildings and falling trees the high winds, rain, hail and sleet did serious damage to early crops, according to reports. Estimates of damage to property from Indiana and Michigan alone aggregate \$2,000,000 about evenly divided. Early reports of loss ranging from \$25,000 to \$500,000 or more from sections of the storm region indicated that the total would reach large figures.

Wires Down in All Directions.
Wires fell in all directions. Not in many years has there been such a prostration of telegraph and telephone service.

Chicago was cut off for hours from communication from point east. By devious routes connection finally was established. It will be several days before normal service is restored. Railroad traffic was seriously delayed in many districts where wire communication was crippled and washouts occurred.

The wind whiped out so much property and cost so many lives attained record velocity at some points.

At Toledo it reached 84 miles an hour, at Buffalo 88, Memphis 64, and Louisville 52 miles. Cold weather is trailing the destructive blow.

The storm seems to have spent its force.

Chicago, March 21.—Spring arrived in the central west today on the wings of the most destructive storm of the year. Snow, sleet and gales of wind brought telegraph and telephone poles to the ground, wrecked buildings and sunk vessels on the lakes. The toll of death will be large, as storm conditions were general all through the central and southern states.

"Worse than the storm of Washington's birthday," was the expression of the wire chief of the Western Union Telegraph company. His opinion was echoed by Postal Telegraph chiefs and those of the American Telephone and Telegraph company. More poles are down than in any storm of recent years, and several days probably will elapse before wire conditions will approximate normal.

Throughout the day there were practically no Western Union wires working out of Chicago. The same was true of the Postal company but strenuous work managed to get several wires of each company working at intervals by nightfall.

Gangs of fur clad "trouble" men with spare wire and emergency outfits are out on all the roads pitching wires to trees, splicing wires, sorting out the ice crusted tangles of fallen lines and doing all that is possible to get enough wires in commission to carry the pressing commercial and news despatches.

No close approximation of the financial damage caused to the telegraph companies by this storm could be made tonight.

Thousands of poles are down and miles of line are in ruin along the road sides.

Train service into this city was delayed in all directions.

In Chicago many trolley lines were tied up by fallen power wires or by poles falling across the streets. During the worst of the storm in the morning, street traffic was suspended. Half a dozen persons were reported severely injured as a direct result of the blizzard. Some of them will die. Suffering among the poor is extreme.

Tornado Sweeps Indiana.

Indianapolis, Ind., March 21.—A storm of tornado proportions which swept Indiana early today did damage estimated at a million dollars. Late reports from over the state increased the loss, but the death toll remained at two, although several persons were reported fatally injured. The dead are:

Omer A. Vice, cab driver at Frankfort; crushed by falling roof.

Henry Walters, Lafayette, Ind.; killed by falling sign. Walters was on an errand for his sick wife when killed.

Among the seriously injured are: Elmer Miller, Terre Haute; struck on head by falling brick while asleep in bed.

Mrs. M. Clarke, Indianapolis; injured internally when a small building fell on her.

Bettie Hill, negress, Indianapolis; skull fractured by falling sign.

Patrolman Robenovitz, Indianapolis; struck on head by brick.

The wire service of the state was demoralized and many places were entirely without communication. Trees blown across the trolley wires delayed the interurban cars and washout on the steam lines in the southern part of the state made travel uncertain.

A cold wave following the storm added to the suffering as many homes had been unroofed and windows broken. A drop of 30 degrees bringing the temperature down to 20 above zero, was general over the state.

Two Storms in Tennessee.

Nashville, Tenn., March 21.—Following hard in the wake of the storm last night, which did twenty lives in Tennessee and did untold damage, the state was visited early this morning by another, which was swept up from the southwest through the heart of middle Tennessee concentrating its fury on Murfreesboro, injuring one man, Hall Jones, fatally, and doing half a million dollars worth of damage.

The storm struck Murfreesboro about 2 o'clock, ripping a path through the public square. Nearly every building there was leveled or practically destroyed. The Presbyterian church was completely wrecked. One corner of the court house was unroofed.

Between Murfreesboro and Winchester, a station on the Nashville, Chattanooga & St. Louis railway to the south, train conductors report that houses were lifted up bodily and some of them deposited across the track.

At Alexandria every residence was damaged, but no lives were lost. Wire service in nearly every direction was paralyzed.

Two Die in House Collapse.

Huntsville, Ala., March 21.—A tornado swept a quarter mile stretch through the northwestern part of Madison county at 2 o'clock this morning, killing two children of Jonas Roberts, whose house was blown away. A third child was badly injured.

The gate was followed by a terrific hail and rain storm.

Negro Woman Killed.
Tyler, Texas, March 21.—A negro woman was killed near here and a white child was injured at Winona in a severe storm which visited Smith county last night. Many houses were damaged.

Many Reports Killed.

Mobile, Ala., March 21.—Twenty-seven persons are dead and thirty-two injured, some so seriously that they are expected to die, as a result of the cyclone which swept Lower Peach Tree, Ala., this morning between 4 and 5 o'clock, according to a special despatch to the Register from Pine Tree, Ala. Seventeen of the dead are white persons.

The property damage will amount to \$150,000.

One Death in Central Ohio.

Columbus, O., March 21.—A terrific wind storm swept over central Ohio today, causing one death, probably a score of persons injured, numerous small fires and thousands of dollars damage to property. The gale reached a velocity of fifty miles an hour. Richard Plimmer, a contractor, was killed and three other men seriously injured when a brick building collapsed.

Heavy Property Damage.

Jefferson, Texas, March 21.—Fifty to sixty thousand dollars damage was done, but no lives were lost, in a tornado which lasted two minutes here last night.

Several Reported Killed.

Decatur, Ala., March 21.—A white boy, Joel Sherrill, aged 8, was instantly killed and a number of negroes reported killed by the cyclonic storm which struck this section last night.

Storm at Detroit.

Detroit, Mich., March 21.—A terrific wind storm, at times reaching a velocity of 86 miles an hour, swept Detroit and practically all of Michigan today, leaving death and great property damage in its wake. It was estimated that the property damage would reach nearly a million dollars. Tonight only one death had been reported due to the storm, but local hospitals reported many seriously injured and meagre reports from out in the state brought in the same details.

Wire traffic was completely demoralized. In many sections miles of telegraph and telephone poles were down. The wind struck the city about 8 o'clock in the morning. By noon every policeman on the local force had been ordered on duty un-

WILL PUSH CAMPAIGN

Insurgent State Officials
Will Hasten Fighting at
Naco and Cananea

FEDERALS AT GUAYAMAS

Huerta Soldiers are Rapidly
Being Mobilized at the California Gulf Port

NOGALES, ARIZ., MARCH 21.—Facing intrusion of federal forces from Guayamas, the California gulf port in southern Sonora, officials of the insurgent state to day decided to hasten the campaign against Naco and Cananea, the only remaining federal garrisons in the north.

After crushing General Ojeda at Naco on the Arizona border and Colonel Moreno at Cananea, an American mining center below the border, all available state troops will be rushed against Guayamas. The report to day that 4,000 Huerta soldiers are being hurried by transport from Pacific coast points to Guayamas, where one thousand federals already are located will occasion great haste in completing the northern campaign.

While neither Naco or Cananea now contain more than 350 federals, nearly fifteen hundred state troops mobilized to day at Del Rio, midway between Cananea and the border. General Oregon, head of all state forces, was in personal command of the column which moved on three trains with ample supplies of foodstuffs and a munition, two field pieces and a number of machine guns. Leaving Ojeda temporarily in his internal problem of preventing desertions over the border into Arizona, it was decided first to attack Cananea, immediately returning by rail against Naco.

Already state troops are mobilizing along the Sonora railway just north of Guayamas to prevent any Hermsillo, the state capital. But not until the northern campaign is completed can a force be organized to oppose any formidable advance of Huerta troops.

Also the state authorities must guarantee to guard the frontier. While General Rabago cannot leave the vicinity of Chihuahua City because of activity of constitutionalists to the south of him, it is feared that other ex-insurrectos leaders will follow Antonio Rojas, who has entered western Sonora.

Salazar Undecided.

Washington, March 21.—Inez Salazar, one of the rebel chiefs in northern Mexico, seems undecided whether he will cast his fortune with the Huerta forces or with the factions against them. Meanwhile Juarez is reported undisturbed. General Salazar is allowing railways to be repaired and trains are running in and out of Juarez.

The revolutionists Peryea and Contreras, according to reports from Durango have abandoned Cuernavaca and are said to be in retreat to the north. Durango is quiet but without railroad communication.

Demand Surrender.

Cananea, Mexico, March 21.—A demand for the surrender of this place was received to day by Colonel Soreno of the federal garrison. It came from Col. Cabral, commanding the state forces now mobilizing at Del Rio, midway between Cananea and Naco, on the border.

Cabral said he would attack in the morning and recommended that all women and children be removed from the place. Automobiles continue to hurry the non-combatants to the border at El Paso and Douglas before the time of the threatened attack, all women and children will have been removed.

Mueller Held Prisoner.

Nogales, Ariz., March 21.—Max Mueller, German consular agent at Hermosillo, is held by authorities at the state capital, despite activity of German and American diplomats. While Mueller has been released from jail he is said to be held a prisoner at his home.

Will Arrive Monday.

Guayamas, Mexico, March 21.—It was said officially to day that four thousand federal troops will arrive here Monday to proceed against the insurgent state authorities at Hermosillo. The troops will come by steamer from Manzanillo where they embarked from the neighborhood of Mexico City. Already about 1,000 federals are garrisoned here.

Rebels Occupy Lampazos.

Monterey, Mex., March 21.—The town of Lampazos, a hundred miles north of this city has been occupied by a rebel force commanded by Francisco Zuñiga.

Challenges Rabago.

El Paso, Texas, March 21.—"Dear Senor Don General Antonio Rabago: 'You have asked for my extradition from the United States. I am now in Mexico. Come and get me.' This was the message received here today from Francisco Villa, a former Madero insurgent general. He wrote from San Andres, in the Guerrero district west of Chihuahua City, the state capital where General Antonio Rabago is located with 2,000 federal troops.

Villa, with a few followers, entered the field in Chihuahua state from El Paso, where he had sojourned since his escape from Mexico City. He had been imprisoned at the national capital by order of General Huerta, now provisional president.

LETTER REVEALS NATURE OF RELATIONS

STATEMENT WAS WRITTEN BY MRS.
EATON TO HER ATTORNEY

Admiral's Widow Claims in Epistle
to Lawyer That Her Husband Was
Insane and Asks His Aid in Protecting Her Life.

CHICAGO, MARCH 21.—The nature of the relations between Rear-admiral Eaton and his wife, charged with his murder, became known here today in a letter written by Mrs. Eaton, March 15, 1911, to Marshall E. Gallion, an attorney who acted for her in his divorce proceedings against her first husband, Daniel Henry Ainsworth in 1906.

The letter, written from Assinippi, Mass., says:

"The condition of this poor man is dreadful and I fear to stay here this winter. My leaving him alone with my mother while I was in Chicago made him wild. If I had a doubt of his insanity, which I never had, it would be removed quickly as he is so much worse.

"He is a sick, helpless and sad old man, and it goes to my heart. He relies on me entirely. I am his eyes, his ears and his hand. I still how can I stay here alone and let him kill me and poor little innocent Dorothy, and he will do it and then wonder where we are. He is the most dangerous, subtle maniac, and still I have no way to escape.

"Public opinion, his rank, his age and the navy are all against me. All doctors are too diplomatic and afraid to attempt to deal with him as he should be dealt with and it will cost me hundreds of dollars to get evidence and take a year at least to get it in shape and then I probably will be outwitted by sentiment and pity.

"He is the most dangerous man you could meet any place. Please help me, what shall I do? What do you advise me as the most practical? After Friday I shall be here alone with him. Is it wise? He is so subtle and sly, would you get a common, cheap woman, just to have someone with me? Of course such a person would not be able to detect his trouble, only a person drilled to brain trouble or familiar with insanity.

"If he is as dangerous as I believe, I must protect my life, so find out where you can get me a woman who is a Sherlock Holmes in criminal insanity and of highest moral character and high standing with doctors and alienists, one whose word would go.

"If she said he was insane then I would do the rest. Please see what you can do for me and advise me."

Doctor's Testimony Important.

Rockland, Mass., March 21.—The conversation between Rear-admiral Joseph G. Eaton and his family physician, Dr. Joseph Frame, a few hours before the admiral died, will have an important bearing, it is understood, in the further investigation into the cause of the admiral's death.

Mrs. Eaton is accused of having administered arsenic to the admiral on March 7. On the afternoon of that day, Dr. Frame, who had been called to attend Mrs. Eaton's mother, also examined the admiral. The latter died during the night.

JURY HOLDS "SEPTEMBER MORN" IS NOT A LEWD PICTURE

Chicago Art Dealer, Charged With
Displaying Indecent Picture in
Shop Window, Released.

Chicago, March 21.—"September morn" as the painting of a well known artist, depicting a young girl in the nude beside a fountain is not a lewd picture, according to the finding of a jury in the Municipal court here today.

Fred D. Jackson, an art dealer was on trial for displaying in his shop window an alleged indecent picture, which was a copy of the famous original. Among the witnesses called were a priest, several artists, an art critic, probation officers, settlement workers and persons well known in society.

Jackson was acquitted and the picture may be restored to its place in his shop window.

W. W. Hallman, member of the vice commission on the stand said he believed the picture was indecent because it showed the girl bathing in a public place.

Mr. Jackson tried to make Mr. Hallman state what part of the picture he considered indecent.

"There is no particular part," he said, "it arouses sensual feeling in ordinary people."

"Yes," was the reply.

Miss Helen M. E. Jewell, for many years probation officer in Evanston admitted that she would not consider the picture immoral in the homes of her friends in Evanston.

Mrs. Gertrude Howe Britton said she considered the picture indecent.

Oliver S. Grover, an artist made a strong statement in favor of the picture.

Walter B. Smith, an attorney declared that the picture was the work of art.

ex-insurrecto leader, is reported to have secured a concession in the Cases Grandes district southwest of Juarez. Salazar's troops will occupy Cases Grandes on the withdrawal of all federal soldiers. He will be made military governor of the district.

ISSUES STATEMENT GOVERNMENT FIRST

Report Concerning Alleged
Tuberculosis Cure

MAKE THOROUGH PROBE

No Conclusion Regarding Treatment
Can be Reached by Investigators for Some Weeks

WASHINGTON, MARCH 21.—The public health service, through Surgeon General Blue, issued its first statement today relative to the government investigation of Dr. F. F. Friedmann's alleged tuberculosis cure. The statement, which emphasizes the government's policy to proceed cautiously, is as follows:

"On March 18 the secretary of the treasury on the recommendation of surgeon general of the public health service caused a board of medical officers to be detailed to make a thorough investigation of Dr. Friedmann's alleged cure for tuberculosis.

"These officers proceeded immediately to New York and arranged with Dr. Friedmann for demonstrations of his remedy upon persons suffering from tuberculosis. These demonstrations are being carried out in certain New York hospitals through the courtesy of their respective authorities, and will be continued until sufficient information has been obtained for the forming of an opinion as to the merits of the treatment.

"Dr. Friedmann has submitted to the board a culture of the bacteria which he states are used in his method of treatment. In addition to the observation of persons under treatment by Dr. Friedmann, the board of officers will make experiments to ascertain whether this culture is as Dr. Friedmann claims, harmless to warm blooded animals.

"Considerable time will necessarily be required to carry out these investigations but the work will be carried out as rapidly as possible.

"In the meantime the public is informed of the inadvisability in the great majority of cases of traveling long distances in the hope of receiving treatment as those selected for demonstration purposes constitute only a small proportion of applicants.

"Certain statements purporting to be expressions of the opinion of the board of officers of the public health service carrying on the investigation have appeared in newspapers. These officers have expressed no opinion and will not be in position to do so until the work has advanced sufficiently far to warrant some conclusion in regard to Dr. Friedmann's treatment.

Keep Record of All Cases Treated.

It was further stated by government officials that it would be at least a month and probably longer before any conclusions would be reached relating to the efficacy of the treatment upon the patients who are being watched by the board of officers authorized to make the investigation.

Dr. John F. Anderson and Dr. A. M. Stimson, who compose the board, are keeping a daily clinical record of cases treated by Dr. Friedmann in the New York hospitals. These records will furnish the basis for final reports when sufficient information has accumulated.

Though developments from day to day, such as lowering of temperatures, disappearance of night sweats, cessations of coughing and the like might mean something of importance in one case, in others it would not. For this reason the public health officials regard it as dangerous to make any reports whatever until they are ready to report finally. They also point out that it is necessary to keep a record in many cases, as two or three cases would not be sufficient upon which to base a just report as to the efficacy of the treatment.

Shown to be a "Live Bug."
Thus far Dr. Friedmann's tuberculosis cure has been demonstrated to be a "live bug," according to tests administered in the government hygienic laboratory here, sub-cultures having been grown from the original cultures submitted to the public health service by the Berlin doctor several weeks ago.

The test conducted by Dr. Anderson proved that new bacilli would propagate from the prime culture and experiments have been begun with warm blooded laboratory animals. The sub-cultures also have proved to be acid proof and they have been propagated on various chemical media, such as beef bouillon, gelatine, bread and other substances. Enough of the bacilli has been developed for the carrying out of further tests of the anti-tubercular bacilli which Dr. Friedmann claims to have been derived from sea turtles.

FRIEDMANN'S BERLIN PATIENTS RESPONDING REMARKABLY WELL

News Announced in Cablegram From
Physician—Banquet to Be Given
For Doctor Sunday.

New York, March 21.—Sufferers from tuberculosis whom Dr. F. F. Friedmann treated with his vaccine before his departure from Berlin to this country are responding remarkably to the treatment, according to a cablegram received to day by Dr. George O'Hanlon, superintendent of the Bellevue Hospital.

The cablegram came from a Berlin physician.

Dr. Friedmann treated sixteen patients here to day, but was obliged to postpone the treatment of 14 others until tomorrow owing to the fact that his vaccine was exhausted. He devoted most of the day to the preparation of a new supply.

Charles E. Finlay, the New York banker, through whose efforts Dr. Friedmann was persuaded to come to this country with his tuberculosis vaccine, will give a banquet to Dr. Friedmann Sunday night at Dr. Finlay's country home, Great Neck, Long Island. A number of well known persons will attend.

WILL TAKE OVER BUSINESS.

Savannah, Ga., March 21.—A committee of five bankers selected today by creditors of the American Naval Stores company tomorrow will take over the company's business, discontinued Monday. The meeting at which this action was taken was attended by representatives of the sixty or more banks affected by the discontinuance. It was decided only enough money may be borrowed to meet current needs.

A resolution instructs the committee to obtain the resignations of the present officers and directors.

SMITH TO SUCCEED BOWERS.

Washington, March 21.—Dr. Hugh Smith, assistant chief of the United States bureau of fisheries, is slated to succeed George M. Bowers as head of the bureau. Secretary Taft's decision to appoint Dr. Smith to a place is in line with his announced policy to have the scientific bureaus governed by men of technical training. Dr. Smith entered the bureau in 1886.

CATTLE COMPANIES LOSE SUIT

Attempt to Recover From Government For Cattle Lost in Sioux Uprising of 1890.

Washington, March 21.—Echoes of the Sioux uprising led by Sitting Bull in 1890 were heard today in the supreme court of the United States when two cattle companies which lost thousands of cattle during Indian raids abandoned appeals from suits brought in the court of claims to recover from the government. The court of claims held that the Indians were not "in amity" with the federal government at the time the cattle were taken, and therefore under the statute, the companies were not entitled to recover.

THOUSANDS FIGHT TO ENTER PAWNSHOP.

New York Store, Recently Robbed of \$250,000 Opened to Holders of Pawn tickets.

New York, March 21.—Three thousand persons many of whom had been there since daylight, fought to gain entrance to the pawnshop of Martin Simmons and son to day when the doors, which had been closed since the shop was robbed of \$250,000 worth of property last Sunday, were opened to admit holders of pawn tickets. The store was kept open until 4 o'clock when only 200 ticket holders had been able to gain admittance. About three-fourths of them recovered their property.

The rest found that their valuables were among the stolen loot. Some of them, including several women with babies in their arms, came out weeping.

TICE ROAD BILL MEETS WITH OBJECTIONS FROM FARMERS

Study of Proposed Measure Will Show Big Percent of Road Cost Would Come From Cities—Morgan County Farmers Would Pay But Two Thirds.

Under the provisions of the Tice bill which is now pending before the Illinois legislature, state aid will be given to the counties in the building of roads, in some localities farmers are holding meetings and protesting against the bill but it is likely that this happened in cases where the farmers have not thoroughly looked into the situation and come to an understanding of the fact that the cities under the plan outlined will bear a large part of the expense. Yet it is also true that under the provisions of the bill not a foot of the roads could be built within the limits of any incorporated city or town. A glance at the facts will thus show that while the cities and towns are to pay part of the costs that the country will get the first and most direct benefit.

Morgan County Figures.

For the sake of getting at some figures assume that Illinois spends \$10,000,000 for roads during the next five years and that \$100,000 of such roads are built here in Morgan county. This would mean that practically \$33,000 of this sum would be paid by Jacksonville and the incorporated towns in the county and \$67,000 by the county outside of the cities and towns. These figures are based upon way that that the state tax is distributed in Morgan county. Last year the state tax here amounted to \$67,173 and of this amount \$20,778 was paid by property owners in the cities and towns leaving \$46,395 paid by property owners outside the cities and towns.

Experts have figured out that if \$10,000,000 is expended within the coming five years that Cook county's portion of this sum will be \$2,125,000. A big per cent of this vast Cook county tax must come from Chicago itself and yet none of the roadways can be built inside of that or any other incorporated city.

The Maintenance Cost.

The matter of maintenance of state aid roads after they are built is worth thinking about. The Tice bill provides that maintenance and upkeep of these roads shall be entirely at the expense of the state. Take this in connection with the known fact that farmers of Illinois pay 27.6 per cent of the state taxes and you have another argument why the farmers should not be opposed to the good roads plan.

Commenting on the proposed law and referring to some opposition to it the Decatur Review has the following to say:

Farmers' Attitude Puzzles.

"There are many who are puzzled when they learn that farmers are holding meetings to protest against the features and policy of the Tice bill. Of course there is the likelihood that these meetings represent only a part of the farmers; and as yet there is no way to determine what the part is.

"The puzzled ones could understand it if there were meetings of dwellers in cities to protest against this measure. They are to be called on to pay for construction and maintenance of roads for the farming country—and the cities can have no part of these roads.

"Imagine the conditions reversed. Suppose the Tice bill provided for building streets in cities at state and county expense, and provided further that no part of the fund should go to any road outside an incorporated city.

"This would be calling on the farmers to help pay for city pavements, without any direct return to farmers in the way of improvements about their places. In this situation it would be easy to understand the farmers holding meetings and protesting violently.

Who Gets Best of It?

"But this isn't the situation; the one that is proposed is turned around. The proposal is to make the cities of Illinois pay a full share toward the expense of building country roads—in fact to make the cities pay nearly three-fourths of the cost of maintenance after the roads are once built. It looks as if there is any best to this bargain the farmers are to get all of it. The city folks are not meeting and protesting; then why should the farmers? This is the thing that continues to puzzle many.

"Think of the millions that Chicago will have to pay to help build and maintain these country roads. Perhaps in another ten years Cook county, and it is mostly the city of Chicago, may be paying half the total state tax—it is now paying 42.5 per cent of it.

"And Chicago will not be able to get any of the roads for which it must so handsomely help to pay, for the Tice bill says not a rod of state road shall be built within a city. All this road building is to be outside the cities and yet the cities must pay a full share of the expense.

City People Might Object.

"Now there may be objections to features of the Tice bill; this being something for experts to pass on. But certainly there is no good ground for protest on the part of farmers against the distribution of the road building burden made by that bill. If people living in cities don't make objection on this point, there is none.

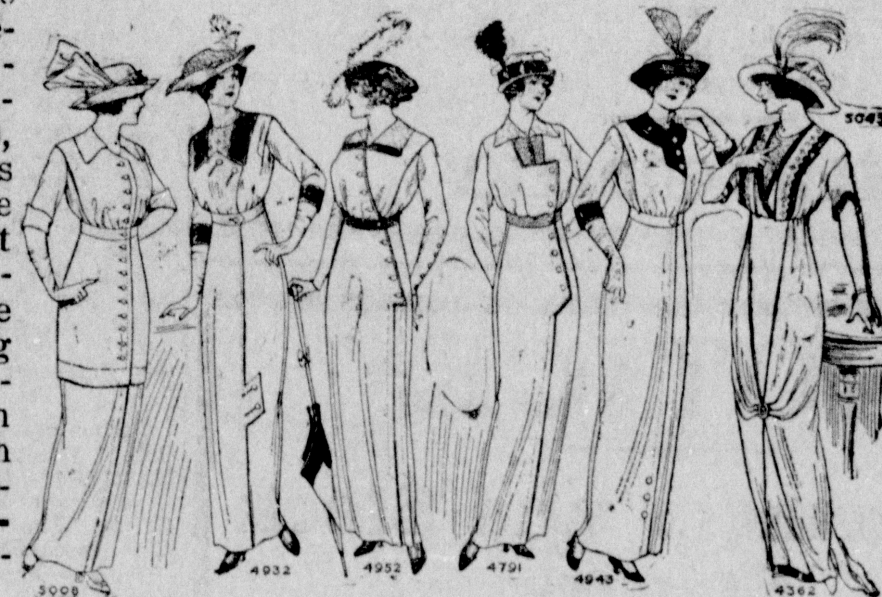

"There is still another feature in the situation. The northern half of Illinois, it being the party of the state with the larger cities and better lands, will have to contribute by far the bigger part of taxes collected under the Tice measure. And yet it is in the north part of the state that you can now find a great many good roads, some of them hard roads. Those communities have been building their own good roads for ten years or longer; and after having done that they are to be called on to help build roads in other parts of the state. This is asking those people to do all that in reason can be asked—if they should ask us to

THE ART OF CORRECT DRESS**Solving the Pattern Problem.**

Article No. 2 in a series of timely talks on "The Art of Correct Dress."

Choosing the style by which to make a new dress has probably caused the women of America more worry and headaches than any other one thing in connection with her wardrobe. While each season brings out certain tendencies which are to be adopted by the well dressed woman, there are so many modifications by the different modistes, choosing is made most difficult. And then the question arises, "Can my dress be made to look like the picture?"

If you use Pictorial Review Patterns our answer is "Yes, your dress will be made to look just like the picture." There is a cutting guide accompanying each pattern which produces absolute accuracy in design.

The worst jolt the combined pattern concerns ever sustained was when the Pictorial Review company began making patterns. No other pattern had ever qualified with the American women. Pictorial Patterns did.

If you are not already acquainted with the smartness of Pictorial Review styles, a visit to our pattern department will be a marvelous revelation to you

NOTICE

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD". It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat	10.00 to 14 per cent
Crude Protein	52.50 to 60 per cent
Crude Fibre	1.00 to 3 per cent
Phosphate	10.00 to 12 per cent

What Is "Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration. It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shipstuffs, or alfalfa meal.

TANKAGE recommended by all leading experiment stations.

It is packed in one-hundred-pound burlap sack, plainly marked "SURE FATTEN HOG FOOD," analysis as above. It is the ideal feed to balance rations.

What "Sure Fatten Hog Food" Tankage Does.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one third.

It grows better proportioned hogs, more meat, a d more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANKAGE fed hogs ship well with small shrink.

While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

Manufactured by the Jacksonville Reduction Co., Jacksonville, Ill.

The Springfield Republican, having "investigated" the matter, reports: "It wasn't a matter of low wages with Eve."

Estimates place at \$700,000 the increased cost to the government of the proposed pensions for widows of the Spanish and civil war veterans who married after 1890.

A new Catholic home for boys is soon to be erected near Peoria. Schools of this character are growing in favor among people of all denominations.

Champaign county authorities propose remodeling an old jail building for use as a tuberculosis hospital. An exchange suggests as a better plan the purification of the old building by fire, then placing the sick people in tents.

Warsaw, once one of the important cities of this state, will celebrate the one hundred anniversary of the building of Fort Edward, later Warsaw, by Zachary Taylor, who was later president of the United States. Warsaw has an interesting history.

Few realize that the government has nearly one hundred preachers in its service—92, to be exact—at salaries ranging from \$600 to \$4,400. Twenty-one are Catholics, 21 Methodists, 19 Episcopalians, 10 Baptists, 8 Presbyterians, 4 Congregationalists, 2 Unitarians, 2 Disciples of Christ, 1 Lutheran, 1 Dutch Reform and 1 Brethren in Christ. Twenty-four are in the navy.

Senator F. C. Campbell has introduced a bill providing that applicants for marriage licenses in this state be required to pass a medical examination. There is a penalty of not less than \$100 or more than \$1,000 for applicants or physicians who may be found guilty of violating the law or in any way attempting to evade the sense of the bill. Such a law might be beneficial, but it is just a few years ahead of public sentiment.

It is said that every claim arising from the disaster at the Cherry mine, a few years ago, has been settled by the company owning the mine without the necessity of court proceedings. This action on the part of the individuals comprising the corporation is worthy of the greatest praise. They have not attempted to shirk the responsibility, and have met it like men. It may have meant financial ruin to some of them. Their action is in marked contrast with that taken by the owners of the Titanic, who are said to be contesting every claim, and seeking to evade responsibility by every technicality.

The selection of David Shanahan as chairman of the house appropriations committee is a just recognition of Mr. Shanahan's years of study of the needs of our state institutions. We doubt if there is a man at Springfield with a more thorough knowledge of the workings and objects and history of the charitable institutions of the state, or better equipped to intelligently consider the appropriations asked for. Mr. Shanahan is a Republican, with a broad view, and interest in and love for the work of caring for the unfortunate consigned to our institutions. We believe his years of experience has made him one of the most valuable men in the state in that regard.

Many newspapers are calling attention to the fact that while a minimum wage bill is, at first, rather alluring, it may help a few and work harm to many others, through loss of employment. There are numerous minor employments that give opportunity for persons of light earning capacity, which, if forced by law to a higher wage scale, would be closed. These places can be filled only by boys, girls and youths who live in homes of their own. Their wages help meet the household expenses of

the family, or are saved to pay the way through school or the acquiring of a trade of profession later in life. Before closing these open doors to industrious and ambitious young folks our legislators will do well to study the proposition thoroughly.

APIPOPOS THE PRESENT

There are persons who constantly clamor. They complain of oppression, speculation and pernicious influence of accumulated wealth. They cry out loudly against all banks and corporations and all means by which small capitalists become united in order to produce important and beneficial results. They carry on mad hostility against all established institutions. They would choke the fountain of industry and dry all streams. In a country of unbounded liberty, they clamor against oppression. In a country of equality they would move heaven and earth against privilege and monopoly. In a country where poverty is more evenly divided than anywhere else, they rend the air shouting agrarian doctrines. In a country where wages of labor are high beyond parallel they would teach the laborer that he is but an oppressed slave.

No, this is not a quotation from a speaker of today, nor of an enemy of his country. Daniel Webster, in speaking in the United States senate nearly eighty years ago, made the above statement. Daniel has been dead for many years, but the class he so graphically pictured at that date are still living and active.

CANNONISM.

Speaker Cannon is a lively "dead one." He is at his old home in Danville, and keeping reporters busy. Here are a few of his latest:

The country—"I am not a pessimist. The country is not going to hell simply because I am out of office. If it goes to hell there will be a good reason for it."

The Democratic party—"A party that is in power with every advantage and every opportunity for making good. I am not sitting up nights and praying for the Democrats to make good, but for the sake of the common welfare, I don't wish them any harm. They've got to make good now, or in 1916 they'll be kicked out of office."

The Republican party—"The party upon whose works the present prosperity of this country is founded."

William Howard Taft—"I cannot speak unkindly of Taft as president. He did some things wonderfully well. He was never a partisan and scarcely a Republican."

Theodore Roosevelt—"A strong, courageous, resourceful man, who for seasons best known to himself has served notice that he is going to put the Republican party out of business."

The Progressives—"A party of fly by nights. They stand for one thing in Wisconsin, another thing in Kansas, and something else in California. A group of visionaries, well meaning, but without fixed principles."

The speakership—"The speaker of the national house of representatives is responsible for legislation. Devices that shear him of his power shear him of his responsibility and throw legislation into chaos."

CLEAN-UP.

Every married man kicks a little when the house-cleaning germ attacks his wife. He grumbles and growls and takes his medicine. The wife tears things up around the home. There is no peace. The work of the wife goes on just the same. But when the "it" is over, order brought into the home again, the man invites his friends in to see how beautifully clean "my" house is. Everything is in order and immaculate. It may not remain in that state very long. Such spasms may occur both in spring and fall. But the place does undergo a change, an improvement. We know of one house, that had been on the market a long

time, that was promptly sold—when the would-be purchaser called to inspect the place the tenant had just finished house-cleaning and everything about the place was attractive.

If our city authorities could be inoculated with a few of the bacilli or germs which bring on that afore-said "cleaning fever" it would be well. Our streets and alleys would be greatly improved if they would only use the street cleaners more, not only around the square, but all over the city. Spring should be a time of public as well as private house cleaning. It is said many business men wear good clothes because they desire to appear successful. The city of Jacksonville, if one judged it by the appearance of some of her streets and alleys today, would most certainly be adjudged a tramp—no indication of success.

An increase of activity on the part of those in whose charge the streets and alleys are placed, might put us in the way of calling attention of visitors to our beautiful streets and their cleanliness. It would help advertise the town as a good place to live, and give the Booster club something to talk of.

Cleanliness is close kin to godliness. The health department might get busy. There are many back yards and vacant lots that look like they might have been used as dumping grounds. They are a menace to health. The health department has power to force the cleaning of these places, if the owners fail to disinfect after legal notification. One of the boasts of Jacksonville is that it is a healthful city. The health department should see to it that, from a sanitary point of view, this boast is justified.

And then the men of the city, those that kick about the discomforts of house cleaning, as well as those who don't, every citizen, in fact, could clean up and improve their individual pieces of property, and in many ways that suggest themselves, help in the city-cleaning work to a great extent.

The women of the city have done much in their homes to make this city attractive. If the men fall in the duty, as they probably will, it may be necessary to appeal to the ladies—to lead in a work that would benefit us all in health, and that might lead visitors to comment upon the cleanliness and attractiveness of our "Athens."

BORAH ON MONOPOLIES.

William E. Borah, of Idaho, is an able member of the upper house at Washington. An active supporter of Roosevelt in the Republican convention in Chicago, last year, he refused to support either Roosevelt or Taft in the campaign which followed, yet claiming at the same time to be a Republican. Senator Borah has recently published an article, "The War With Monopoly," which, because of his character and independence, has attracted much attention. In speaking of the responsibility of the legislators in bringing about present conditions, he refers to a decision of the supreme court given by Chief Justice Taney many years ago. In which it was said that corporations are limited strictly to those powers given them by legislators, and that all doubts as to power were to be resolved against the corporations. Later the courts declared that without the express authority of the legislature one corporation could not hold or vote stock of another corporation, and immediately the state legislatures began to grant this authority which Senator Borah terms "the parent authority of all our present monopolies." He also calls attention to the rule laid down by the supreme court that the state has the right to forfeit every corporate charter for misuse or abuse of power regardless of any specific charter provision. Arguing from these decisions, Senator Borah reaches the conclusion that "if our state legislatures would exercise the powers they have and discharge the duties clearly

devolving upon them, they could strip the entire country of monopolies." "Or," he continues, "if congress could declare that no corporation should engage in interstate trade so long as it held or sought to vote the stock of another corporation, the trust question would be very near the beginning of its end."

In reference to the Sherman law, Senator Borah says:

"The whole question of monopoly goes back to the charter powers of our corporations and the charter powers of our corporations come from the specific grants of the several state legislatures. I would not repeal the Sherman law, but I would reduce it from a generalization to a specific, enforceable statute."

Alluding to the Roosevelt plan of regulating the trusts through a commission or bureau, he expresses the following emphatic disapproval: "Those who now have great character advantages, and who have gathered vast fortunes through extortion and fraud, are especially anxious—

deliriously anxious—to be managed in this way. But I for one am not willing to gorge these monster upon state charters, with their startling and exceptional powers, and then erect a bureau at Washington in the fond hope of keeping them within their cages. The state has no right to grant to individuals the powers of monopoly and then trifle with the people's hopes by promising safety in a commission. If I had my way I would make this a government of law in such matters instead of a government of spasmodic, individual departmental discretion. I would make every corporation convicted of wrong doing an outlaw to the channels of interstate trade."

TWAIN DEDICATION PLANNED.

Hannibal Prepares to Invite Wilson to Unveiling in August. Hannibal, Mo., March 21.—Preliminary plans for the dedication of the monument to Mark Twain, who spent his boyhood in Hannibal, are being considered by the Hannibal Commercial club. It is hoped to have the monument completed and located in Riverview park by August, when President Woodrow Wilson and several governors will attend the dedication of the giant power dam at Keokuk. The Commercial club plans to extend an invitation to President Wilson and the governors to attend the Mark Twain memorial dedication.

Richly Earned the Title of "Self Made Man."

Photo copyright, 1913, by American Press Association.

William B. Wilson, secretary of labor, which is a newly created office in the president's cabinet, deserves the title "self made man" if ever any one did. Mr. Wilson came to this country from Scotland as a boy and had to work for his living from the time he was nine years old. He labored in the mines of Pennsylvania for many years and gained high distinction among his fellow toilers in union affairs. He was a member of the executive committee which organized the national group of mine unions. He will be able to handle big labor problems in his present office with keen understanding gained from long experience. Above is a picture of the secretary at his desk as secretary of labor.

THE PEOPLE ALL

Chorus Cried, Give Us Newbro's Herpicide.

This word of life has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. NEW CHURCH IS TO

HAVE ROOF GARDEN

Free Medical, Surgical and Dental Clinics, Night School and Gymnasium Are Features.

An institutional church which will have a roof garden, an air dome, free medical, surgical and dental clinics, a night school, a good library, a swimming pool, a complete gymnasium, reading rooms and several other features to attract the public, will soon be erected by the congregation of the First Christian Church in St. Louis.

The new building will be two stories high, will cost about \$75,000 and will look something like a high-class moving picture theatre, if present plans are carried out, according to the Rev. John L. Brandt, pastor of the church. It probably will be erected somewhere in the district bounded by Taylor avenue, King's highway, Easton avenue and Lindell boulevard.

Erection Soon to Begin.

It is the intention of the congregation to begin work on the new building within a short time. The old property will be sold but some of the material in the present building may be used in the new structure. When the new church is established with all its departments and accessories, it will be one of the most unique institutions of its kind in the United States, according to Dr. Brandt. It will offer every form of wholesome recreation and amusement and will give its members educational facilities on many kinds.

It is Dr. Brandt's idea that if the citizens won't go to church, the church must go to the citizen. And the citizen isn't going, Dr. Brandt said.

"I believe there are 400,000 persons in St. Louis who do not go to church at all," said Dr. Brandt. "Perhaps 150,000 attend church regularly, but I do not believe there are more than that. Thousands, of course, are kept away by illness, the nature of their employment and other considerations, but the majority stay away from church because they don't like to go."

To Appeal to Majority.

"It is to that majority that we shall appeal with our institutional church. We will make it so attractive that they will want to attend. We will not force religion upon them but we will show them that religion is something applicable to everyday life, and not something to be regarded with dislike."

The roof garden on the new church will be used for moving picture shows and other entertainments, and possibly for Sunday evening sermons in warm, fair weather. Dr. Brandt explained. In the air dome, illustrated lectures and sermons, travelogues and educational demonstrations will be given during the summer in addition to picture shows and dramatic entertainments there and on the roof. In the winter time a big assembly will be used for such purposes.

As education features, the church will offer courses in bookkeeping, shorthand and other branches. A big kitchen, containing several ranges and full equipment of all kinds of cooking, will be provided for the domestic science classes. It also will be used to prepare meals and refreshments served at the church.

"What Use Are Domes and Towers?"

In discussing the roof garden, Dr. Brandt said: "Why should we waste all that space by a sloping roof? Of what use are massive domes and lofty towers? Will it not be better to have there a beautiful spot, where our members and their friends can rest and see pleasing and unlifting entertainments?"

"I have heard that pastors of some of the rich West End churches are objecting to the establishment of such a church as ours in their territory, because they fear we will get some of their members. They need not have any such fear. Although everybody will be welcome, we want to reach that big class of people who do not go to church at present."

Church Losing Ground.

"The other churches, however, will lose their congregations gradually unless they change their methods. The church is losing ground nearly everywhere, and something must be done if it is to survive. Our plan is to bring it nearer to the people."

Dr. Brandt said he had estimated that the cost of maintaining each of the big West End churches is about \$40,000 to \$50,000 a year, and that last year they took in about 40 new members, each making the cost of winning a member about \$1,000. The First Christian Church, he said, took in 150 new members last year and its expenses for the 12 months amounted to about \$4,300.

PHYSICAL EDUCATORS TO MEET.

Newark, N. J., March 21.—Nearly one thousand gymnasium instructors from all parts of the United States and Canada are expected to attend the annual convention of the American Physical Education Association which will meet in this city next week. The sessions will begin Wednesday and continue until Saturday.

UNIQUE NAME

THWING WILL SPEAK

AT PEACE CONGRESS.

Read of Western Reserve University At Cleveland to Talk on Students "International Patriotism Among College Students" will be the subject of an address at the Fourth American Peace Congress in St. Louis May 1, 2 and 3, by Charles F. Thwing, president of the Western Reserve University of Cleveland, O., according to advices received yesterday by James E. Smith, chairman of the Executive Committee, from Prof. Manley O. Hudson, chairman of the Program Committee.

Officers of the congress say that Dr. Thwing's address will be of especial interest in view of the fact that he is president of the Intercollegiate Peace Association, whose Western Group Oratorical Contest, the winner of which will receive the prize of \$100, offered by the Business Men's League of St. Louis, is to be held at St. Louis May 1, the opening day of the Peace Congress.

Preliminary to the congress Edwin D. Mead of Boston Mass., director of the World Peace Foundation will deliver several addresses in Missouri at the close of the present month.

GOOD ADVICE.

A Jacksonville Citizen Gives Information of Priceless Balance.

When you suffer from backache, Headaches, dizziness, nervousness, Feel weak, languid, depressed, Have annoying urinary disorders; Do you know what to do?

Some Jacksonville people do. Read the statement that follows. It's from a Jacksonville citizen.

Testimony that can be investigated P. J. Meany, blacksmith, 333 North East street, Jacksonville, Ill., says: "When I used Doan's Kidney Pills two or three years ago, they fixed me up in good shape. My kidneys pained me terribly and my back would ache when I stooped. The action of my kidneys was irregular. Doan's Kidney Pills not only stopped the pain but regulated the kidney action."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Meany had—the remedy backed by home testimony. See all stores, Foster-Milburn Co., Props., Buffalo, N. Y.

ST. LOUIS BUREAU SEEKS

GOOD ROADS HEADQUARTERS

St. Louis has a chance to become headquarters of the National Good Roads Federation, composed of ninety-three organizations—city, state and national—having for its purpose the betterment of highways, according to members of the St. Louis conventions bureau. The executive committee of the federation, which will select the headquarters, is said to favor St. Louis.

Bureau members will attend the federation meeting at Birmingham, Ala., April 24, in an effort to procure for St. Louis the next annual meeting in April, 1914. There are about 6000 delegates and an exposition of road machinery at the convention. The exposition will be

in Suburban Garden if procured.

One of the main efforts of the federation is to pass a bill now pending in congress providing equal payment, state and federal, for the building of interstate highways. The federation also indorses the use of convicts in road building and the turning of private of the United States army into guards and the non-commissioned officers into road superintendents and clerks. The organization wants an income tax on public utility corporations, to be used for road building.

Miss Enola Sawyer of Mt. Vernon was among the visitors in the city Friday. Miss Sawyer expects to leave to day for Corno, Colo., for her health.

GOOD FRIDAY AND

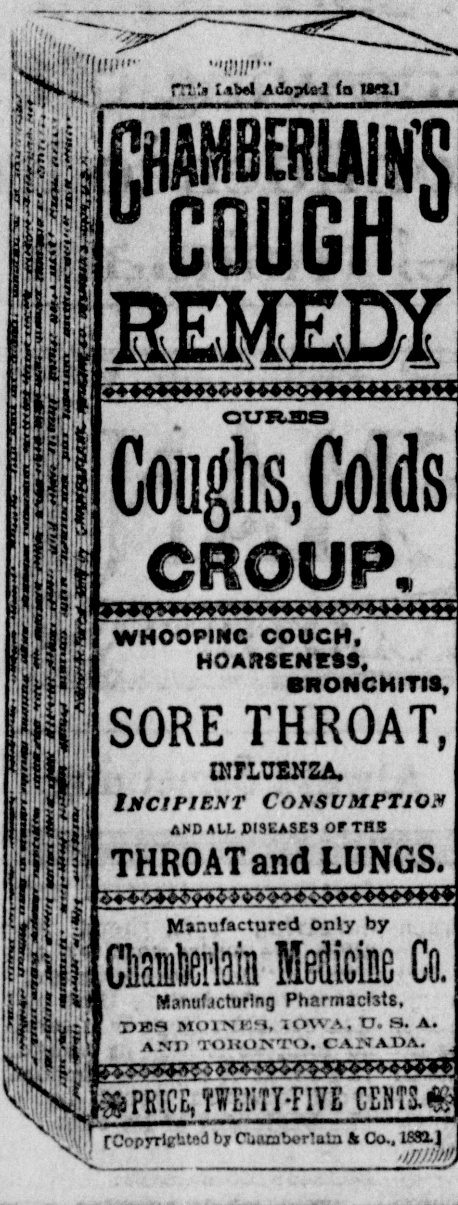

HOT CROSS BUNS.

New York, March 21.—Good Friday, marking the close of the penitential season which precedes the great Christian festival and holiday of Easter, was observed in New York today with all the time honored customs. In Old Trinity and St. Paul's chapel, in St. Patrick's cathedral and in nearly all of the other Episcopal and Roman Catholic churches there were elaborate services, with many notable programs of religious music. The New York Stock Exchange, the Cotton Exchange and the other big exchanges were closed for the rest of the week, to reopen Monday.

The outward and visible sign of Good Friday is the hot cross bun. Never before were there so many of

them seen in the metropolis. The windows of every bake shop and delicatessen store were filled with them and every hotel and restaurant served them at the breakfast hour.

The custom of eating hot cross buns on Good Friday was introduced into America from England, but the real origin of the custom has never been satisfactorily traced. Similar delicacies existed long before the Christian era. Indeed, a learned Egyptologist once asserted that it was originally symbolical of the worship of the sacred bull in ancient Egypt. Buns, which stands for bull, is in one of its oblique cases written "boun," which gives, as he triumphantly pointed out, an easy transition to bun—an explanation more ingenious than convincing.

CHATS WITH GREAT MEN OF THE CIVIL WAR

GEN. GOUVERNEUR K. WARREN

When General Craighill of the engineer department responded to the letter of introduction from his brother, Rev. James B. Craighill, for many years the beloved rector of our home church, he brought with him General Gouverneur K. Warren, also of the engineer department.

I was glad to see them both, but I greeted with even more than my usual cordiality the grave, quiet, reserved, heartbroken soldier, General Warren, and told him how delighted and honored I was in meeting him; even though I knew that if it had not been for him and his knowledge as a great engineer there would have been no third day of Gettysburg, making so many orphans and widows and causing my own soldier a lifetime heartbreak.

"Yes," he sadly, quietly replied, "I suppose I did make the third day possible for just as soon as I got on top of Cemetery Hill and saw that Little Round Top was unoccupied I issued orders for its occupation, and I wasn't any too soon, either, for in a moment more your soldiers would have been ahead of us. You know I did not arrive on the field until the second day and General Pickett came later than I did. I was saying to General Craighill as we drove over here that our two most conspicuous battles, your husband's and mine, were Gettysburg and Five Forks, and I was in every battle of the Army of the Potomac from Bethel to the surrender. I believe that, too is the general's record with the Army of Northern Virginia, is it not?"

"No," I said, "he was severely wounded at Gaines' Mill, shot through the shoulder, and was absent while his wound was healing. But he went back to his command two months before he could use his arm or wear his coat sleeve."

One Sunday afternoon a week later General Warren called again, bringing his charming wife and two children. After a pleasant visit they suggested a ride and we drove through Soldiers' Home, stopping to see the view almost opposite the Scott statue.

To entertain the young people I told them an old Pacific coast story of General Scott. When he was receiving the honors on board an Eng-

lish ship he came upon a rope under which the officers of the lesser lights stooped in passing, but which the general ignored, attempting to stride over it as if it had not existed. Being unable to make his left leg follow his right, he commanded first one and then another of his lieutenants to pass it over to him, all of whom became suddenly deaf, not wishing to go down in history as having been the leg-bearer of General Scott. Finally, catching the eye of Lieutenant Snelling, he commanded:

"Lieutenant, hand me over my left leg, sir."

"That was like the old Scott strut," said General Warren. "He had some spinal trouble which was the cause of his inability to lift his left leg over. The same affliction prevented his mounting his horse. He was a Virginian, you know. And your Jackson, who made the sovereignty of the states a part of his Presbyterian creed, won his first honors under Scott in Mexico. Your General Lee was on his staff; do you remember the closing lines of his letter to Scott in which he resigned from the army: 'I have devoted all the best years of my life to my flag and, save in defense of my native state, I never again desire to draw my sword.'"

"And you know, general," I said, "he was appointed by the state authorities as commander of the Virginia state forces and did not enter the service of the confederacy until the state troops were incorporated into the southern army."

"That is so; I never thought of that before."

I did not see General Warren again till he had answered the last roll call. I went to take some flowers, in the name of my own soldier, to this other soldier whose still face even yet showed the marks of sorrow and wrong which he had suffered in return for a lifetime of brave and honorable service for his country.

Two years ago in Baltimore, when I was giving my lecture on Gettysburg, the dear widowed wife of the wronged hero of the north sat in a box to my left and her red and white roses were the first to bless me.

ASSEMBLY FIGHT ON LIQUOR QUESTION COMES SOON

Temperance and Liberal Committees Soon to Be Named—County Option Bill Introduced in Senate.

Springfield News: The "wet" and "dry" fight in the general assembly over the passage of legislation affecting the liquor business will begin next week. The makeup of the committees in the house which will handle these matters probably will be determined upon then and committee consideration of the county option bill pending in the senate may be taken up.

In the house Speaker McKisley will name two committees. One will be known as the temperance or "dry" committee and the other as the liberal or "wet" committee. All anti-dram shop measures will be referred to the temperance committee and all wet bills will go to the liberal committee.

A Friendly Committee. This will insure friendly committee action and will prevent the smothering of bills without roll call on the floor of the house. The bills which the two committees consider proper will be reported out with the recommendation that they pass, and it will then be up to the house to choose between them.

It is understood that George H. Wilson of Quincy is favored by the "dry" element for chairman of the temperance committee and he probably will be appointed. Thomas Curran of Chicago is said to be in line for the chairmanship of the liberal committee. Both of these men served as chairmen of the respective committees last session. They are both Republicans.

The last general assembly was the first to adopt the two committee method. Before that time all saloon measures had been referred to the license committee, and the fate of the bills depended upon the makeup of the committee. The makeup of the committee depended upon the desire of the speaker. When Adkins was selected as a compromise candidate for speaker in the last session, however, the anti-saloon league insisted on being assured it

would have fair committee treatment before its members in the assembly would vote for Adkins. The two committee plan was the result. The county option bill has been started in the senate this time and it will not be offered in the house until the senate has it on the way towards final action. The bill was started in the house last session and was defeated.

Many Measures Introduced. While the "drys" admit that there will be difficulty in obtaining the passage of a county option bill, they hope to get through the assembly some of the pending "dry" measures. The "search and seizure" bill introduced yesterday by Representative Kane is one that has been before the assembly in some form for several years. It gives officers of the law the right to search a premise where it is thought liquor is being kept for sale by the swearing out before a justice of a search warrant similar to the search warrants now issued in larceny cases. Any liquor found on the premises can be confiscated and destroyed and the owner of the property prosecuted under the local option law.

There is also a bill pending in the house prohibiting the sale of liquor within four miles of the University of Illinois. This measure would make Urbana and Champaign "dry" territory.

Another bill prohibits the shipment of liquor into "dry" or local option territory. It is the same in effect as the Webb bill passed by congress.

It is probable that the liquor interests will have several bills and they probably will attempt to repeal the township option law now in effect.

BESSIE CLAY ACQUITTED. A dispatch from Mobile, Ala., states that Bessie Clay, who was put on trial there for the murder of Joseph McGowan, formerly of this city, was acquitted by a jury after three minutes deliberation. The girl claimed that she shot McGowan while he was abusing her mother. After the verdict had been rendered the girl kissed each member of the jury and warmly expressed her thanks for their action in releasing her.

Ernestine Schumann-Heink, Contralto, Opera House, Tuesday, March 25th

It was the spell of a golden voice, the sense of listening to something that is supremely beautiful, that brought thousands to hear Madame Schumann-Heink at the Auditorium last night, where they once more dwelt under the delicious yoke of the majesty of song. This recorded tribute from the pen of the music critic of the Los Angeles Examiner is only one of the hundreds of similar character printed during the past year in many countries concerning a contralto whose artistic preeminence has so long been recognized.

Schumann-Heink sang ninety performances in the season of 1911-12 which she began on the second of November and closed June fifth; two of these appearances being in the leading operatic roles with the Philadelphia-Chicago Grand Opera Company. Traveling during the fall, winter and spring of 1911-12, from coast to coast, Schumann-Heink was heard as soloist with the Boston Symphony Orchestra on no fewer than twelve occasions, and in May she was the principal contralto at the Cincinnati Festival. To round out her year of industry this mistress of vocal art created a furor at the last summer Wagner Festival in Bayreuth, and equalled that triumph when she was heard in the Prinz Regent Theatre, in Munich.

Singing for the third successive day (Thursday night, soloist with the Boston Symphony Orchestra at Carnegie Hall; Friday night, soloist with the same orchestra in Brooklyn)—Schumann-Heink, at the Saturday matinee Boston Symphony concert in Carnegie Hall, gave a memorable revelation of vocal and interpretative art," declares the music critic of the New York Globe. The melody of the singer's tones, the smooth flow of her legato, the grace and poise of her phrasing must have surprised those who knew Schumann-Heink solely as a declaimer of heroic roles in Wagner's dramas.

A lullaby, interpreted by Schumann-Heink, becomes as distinctly welcome as the operatic aria of largest mould, for as the reviewer of matters musical for the San Francisco Examiner states: "Not only is she supreme in her versatility, which is truly wonderful and characteristic, but there are few to be classed with her any one line of song work she offers," an opinion shared by the critic of the Toronto (Canada) Globe, who remarks: "Schumann-Heink has a firmer hold on the affections of the music-loving community than any woman singer who for years past has regularly been a star attraction of our concert seasons."

It is not difficult to understand the steadily increasing popularity of an artist so liberally gifted as Schumann-Heink, for her womanly charm invariably causes a sympathetic response, 3 times last season she was tendered the freedom of as many American cities.

This season find Schumann-Heink a soloist with the foremost American and Canadian symphony orchestras, she is the featured attraction at several of the large musical festivals and also finds time in addition to singing a host of song recitals, to appear six times with the Boston Grand Opera Company, and a number of times with the Philadelphia-Chicago organization. Such information will be greeted with pleasurable anticipation by music patrons of this continent, who have come to regularly insist upon a Schumann-Heink appearance as a necessary part of each concert season schedule.

The musical expert of the Cincinnati Times-Star but voiced the opinion of working colleagues and critics in writing: "Schumann-Heink warned to the occasion when she sang the half-forgotten aria, 'Wee Unto Them Who Forsake Him' with devotion and impressive simplicity; and few are the contraltos who who have ever given so satisfactory a rendering of the favorite air, 'Rest in the Lord.'"

AUCTION SALE OF TOWN LOTS!

On the Premises, Jacksonville, Ill.

Tuesday, March 25, at 2 P.M.

RAIN OR SHINE.

We have Purchased what we think the Best Piece of Land in Jacksonville for City Lots, namely,

The Old Morrison Property

ON GROVE STREET, and have a crew of men beautifying and platting this property into town lots, with streets and alleys, and on Tuesday, March 25th, at 2 p. m., we will sell these nice lots at public auction to the highest bidder, regardless of what they bring, on easy terms. No by-bidding. **NOW LISTEN:** When we say we are going to sell these lots at auction **WE MEAN** what we say. We will sell every lot put up, lose or win; that is our business. We are town lot men, and believe we know good stuff when we see it, and if this is not good stuff we are fooled one time.

You know that high class real estate is the best investment on earth; you know these are high class lots; know lots like these are scarce and high in Jacksonville; you know that lots sell cheap at auction; you know that a town that has grown to the importance that this town has, with her fine farming country, strong banks and business houses, cultured people, fine churches, good schools, to back her up; there is only one way for lots to go, and that way is **higher and higher**. So attend this sale. Buy a few of these lots and watch your money grow. This the last chance at these lots without paying a handsome profit, so get busy on day of sale.

\$10.00 IN GOLD FOR A NAME!

We will give the two ladies sending in the best name for this new addition \$5 each in gold, provided you are on the grounds the day of sale. All names must be sent to Walton Brothers at Pacific Hotel by Saturday, March 22th.

\$50 IN GOLD GIVEN AWAY. In order to show our appreciation of your presence on the grounds we are going to give away free \$50 in gold. You don't have to bid to get this gold, but you must be on the ground the day of sale. Brass band to entertain you. Come out and hear the noted auctioneers, Col. Igleheart of Kentucky, and Col. Reppert of Indiana. Come out and let's have one big afternoon. Your neighbor will be there.

Obermeyer.

WILL BUY BIG GRADER.
Franklin Times—The highway commissioner of road district No. 9 has been in the office here Tuesday and decided to buy a big engine grader to use in working the roads, but have not yet decided on the make which they will purchase. The roads of the district have been gradually brought up to good shape and the commissioners intend to keep them that way.

The road districts on the east and west have both purchased engine grading outfits lately and these are giving good satisfaction, so the commissioners are taking advantage of the experience already gained by their neighbors in making this investment.

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra hall, Chicago, he was seriously interrupted by continual coughing of the audience. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in throat would use Foley's Honey and Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. City Drug Store—J. A. Obermeyer.

COLORED WOMAN IS FOUND DEAD AT HOME

Hattie Hearlston Died Suddenly, Probably From Heart Disease. Coroner Will Investigate.

Miss Hattie Hearlston, a colored woman forty years of age was found dead at her home on North West street about 3:30 o'clock Friday afternoon. Death was probably due to heart disease and an inquest will be held today by Coroner Wright.

The deceased was met on the street about five o'clock Thursday evening by Goldie Taylor who lives in the same neighborhood and Miss Hearlston complained of not feeling well and thought she would see a doctor or get some medicine. Goldie Taylor and Stella Oxley went with her to her home and built a fire for her and then left as there seemed to be nothing more that they could do to help. Friday afternoon as they had seen nothing of her they went to the house and after trying the door looked through a window and saw Miss Hearlston sitting near the bed with her head thrown forward. The woman was in such position that the girls were sure she was dead and the matter was reported to Chief of Police Advis. He in turn notified the coroner and the body was removed to Reynolds undertaking establishment. The inquest will be held this morning at 9 o'clock.

The deceased was about forty years of age and for a long time has been employed at intervals at the home of Mr. and Mrs. Andrew Lock and they regarded her highly for faithfulness and industry. She is survived by a half brother, William Johnson, who is employed by the street car company.

AND THE REST OF US WITH \$34.12 PER CAPITA.
New York, March 21.—Some one recently pronounced the question as to what would be the first thing you would do if you were given a million dollars. Now here's one for the bright pupils at the head of the class. What would you do if you inherited several hundred millions of dollars? Some problem, eh? Yet this is the very problem that a little American boy celebrated his seventh birthday today with in all probability have to solve when he grows older.

The little fellow is John D. Rockefeller, III., eldest son of John D. Rockefeller, Jr., and grandson of the Standard oil magnate, the bulk of whose millions he will eventually inherit. The Rockefeller fortune is estimated at upwards of \$1,000,000,000. Should the seven year old lad of today inherit one-half of this amount and the same be compounded at interest for fifty years he will have about \$2,500,000,000 with which to make himself comfortable in his old age.

HANDS CRACKING AND BLEEDING

With Eczema. Watery Blisters. Disfigured and Sore. Could Not Put Them in Water. Cuticura Soap and Ointment Cured.

St. Clair, Mo.—"My trouble began about fifteen years ago. It was what some claimed eczema. The form the disease worked under was a breaking out with watery blisters on my hands which would then dry and scale, and then would follow the trouble of cracking and bleeding, also itching and hurting. My hands were disfigured at the time, and sore. The trouble was very annoying, and disturbed my sleep. This last February it was ever so much worse than before. I did not do all my work on account of the condition of my hands. I could not put them in water without making them worse. I tried a lot of home remedies, also salves and ointments that claimed to be a cure for the trouble, but I did not obtain a cure.

"At last I saw the advertisement for Cuticura Soap and Ointment. I sent for a sample. I thought they would cure, so I sent for a fifty-cent box of Cuticura Ointment and some Cuticura Soap. A doctor advised me to keep about with the Cuticura Soap and Ointment and they cured me completely. No trace of the trouble remains." (Signed) Mrs. Mary Taylor, Mar. 29, 1912.
Cuticura Soap and Cuticura Ointment are sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Tells How Lydia E. Pinkham's Vegetable Compound made Her a Well Woman.

Chippewa Falls, Wis.—"I have always had great confidence in Lydia E. Pinkham's Vegetable Compound as I found it very good for organic troubles and recommend it highly. I had displacement, backache and pains when standing on my feet for any length of time, when I began to take the medicine, but I am in fine health now. If I ever have these troubles again I will take Lydia E. Pinkham's Vegetable Compound."—Mrs. Ed. PERON, 816 High St., Chippewa Falls, Wisconsin.

Providence, R. I.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound as it has done wonders for me and I would not be without it. I had organic displacement and bearing down pains and backache and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABRIEL LAWSON, 128 Lippitt St., Providence, R. I.

ALLEN CLANSMEN ARE NEAR TO FINAL PENALTY FOR CRIME

Outlaws Convicted of Murder in Virginia Are Awaiting Execution—Will Soon Go To Electric Chair.

Richmond, Va., March 21.—Floyd Allen, the leader of the outlaw band in Carroll county, and his son Claude Swanson Allen, who are in the death cell of the state penitentiary awaiting their doom, have only one more week to live. Governor Mann having refused to interfere in the case and all legal resources having previously been exhausted in behalf of the prisoners, they will go to the electric chair one week from today unless something entirely unexpected and unforeseen should occur. The execution of these two men, who had been the principal actors in the "shooting up" of the Carroll county court at Hillsville, on March 14, 1912, will be the closing chapter of one of the most sensational murder tragedies ever enacted in this country.

The tragedy at the Hillsville court house was the culmination of years of lawlessness on the part of the "fighting Allen," as the wealthy and numerous family of the Allens were called in that mountain district. Some time in February, 1912, two nephews of Floyd Allen were arrested for some minor offense by a deputy sheriff. While they were being taken to the jail, Floyd Allen and several members of the Allen family attached the deputy, knocked him senseless with the butt of a revolver and rescued his prisoners. Floyd Allen was arrested and indicted and his trial began in the early part of March.

Floyd Allen, who seemed to be the leader of the clan, had openly boasted that he would never go to prison and the Allens made frequent threats against the court and everybody connected with it. Floyd Allen was tried on March 13, but the jury did not bring in its verdict until the following day. The prisoner being a man of prominence, his trial attracted a great deal of attention, and on the morning of March 14 the court room was crowded with spectators, among whom were half a dozen or more of the members of the Allen family.

The jury rendered a verdict of guilty and the court sentenced Floyd Allen to one year imprisonment. When the presiding judge, Thornton L. Massie, turned the prisoner over to the sheriff, Floyd Allen, exclaiming that he would not go to prison, drew two revolvers and opened fire at the court. The other members of the Allen family, who were in the rear of the court room, followed his example and for a few minutes bullets flew thick and fast. Judge Massie, State's Attorney E. M. Foster and Sheriff Lewis Webb were shot down and killed on the spot and a number of other persons who happened to be in the court room at the time were injured. Two of them August Fowler, a juror, and Nancy Ayres, a girl of 19, who had been a witness in the case, died from their wounds after a few days.

The Allens, excepting Floyd Allen, who was accidentally shot in the knee, and his son, Claude, mounted their horses and fled into the mountain wilderness of the Blue Ridge range, where, from behind rocks, they defended themselves against the posse sent out to capture them. The governor offered a reward of \$1,000, which later was raised to \$4,000 for the arrest of the gang.

Floyd Allen was arrested on the following day and two days later a special grand jury returned indictments against Floyd Allen, Claude Swanson Allen and Victor Allen, sons of Floyd; Sidna Allen, a brother of Floyd; Friel Allen, Wesley Edwards and Sidney Edwards, nephews of Floyd; Bird Marion and John F. Moore. The latter was merely indicted for having assisted the Allens to escape.

Bictor Allen and Bird Marion were arrested at Pulaski on March 17 and taken to Roanoke, Va. Sidney Edwards was captured near his home on March 22. Claude Swanson Allen, almost starved by two weeks of hiding in the mountains, gave himself up near Hillsville on March 28, and on the following day Friel Allen followed his example. Sidna Allen and his nephew, Wesley Edwards, managed to escape, but were captured at Des Moines, Iowa, on September 14.

Floyd Allen and his son, Claude, were tried separately for the murder of State's Attorney Foster and found guilty. They were sentenced to be executed on November 22 of last year, but obtained several respites, the date being finally fixed for March 28. Sidna Allen was given 35 years, Wesley Allen 27 years, Friel Allen 18 years, Sidney Edwards also 18 years in the penitentiary. Victor Allen, Bird Marion and John F. Moore were acquitted.

Health Warning.

Chilled and wet feet result in congesting the internal organs, and inflammation of the kidneys and bladder, with rheumatic twinges and pain in back, generally follow. Use Foley Kidney Pills. They are the best medicine made for all disorders of the kidneys, for bladder irregularities, and for backache and rheumatism. They do not contain habit forming drugs. Tonic in action, quick in results. City Drug Store—J. A. Obermeyer.

BENITO JUAREZ ANNIVERSARY.
City of Mexico, March 21.—The birthday anniversary of Benito Juarez, the great Mexican patriot, was celebrated today by all citizens of the republic without regard to their political differences. The anniversary is a national holiday and is always observed with fetes and celebrations. Juarez was born March 21, 1806, of Indian parentage, and served as chief executive of Mexico during the crucial period of the nation's early history.

DENEEN DECLARES HIMSELF STILL A REPUBLICAN.

Former Governor Made Address at Rally Held Thursday Night.

Charles S. Deneen, back among his former neighbors in the old Town of Lake, says the Record Herald, told the Republican Club of the Thirty-second ward at Masonic temple, Sixty-seventh street and Wentworth avenue, last night that he had refused to become a Progressive when to do so would have given him the governorship. He said he was a Republican, is a Republican and would continue to be a Republican.

"Democratic success will be short lived," said the former governor. "The Democratic party must reverse itself to carry out the problems before it. Representing only 42 percent of the people of the nation, it will not be able to continue."

"Hence, it is well to stick by the Republican party now. Our fight among ourselves, which brought us to a sorry state, will be forgotten. I went without a governorship to remain a Republican."

"The next platform of the Republican party will be brief. It will read 'Put us back in power and we will restore prosperity as we left it' and the people will be wanting it."

A Word of Caution.

One should be exceptionally careful just now about taking cold, and when a cold is contracted get rid of it as quickly as possible. To accomplish this you will find Chamberlain's Cough Remedy excellent. It is not only prompt and effective, but is pleasant and safe to take, and has a reputation of forty years back of it. For sale by all dealers.

OBSERVANCE OF GOOD FRIDAY.

The Messenger, published by St. Patrick's Catholic church in Danville, publishes the following on the significance of Good Friday, observed yesterday in the church calendar:

"The church calls the day 'Paraceve,' that is, the day of preparation. The Jews called it so, because they made preparation for the pasch. On this day the true Paschal Lamb, Jesus Christ, was slain on Calvary. This day places before our eyes the most important event of Christianity—the death of Jesus, whereby the whole world was redeemed. On this day, the church gives herself up to mourning and sadness over the

passion and death of our Lord, and admonishes the faithful to do the same. She celebrates Good Friday in silence and sadness, with solemn gravity by a strict fast and by somber mourning ceremonies. On this day, after the reading of the Passion, solemn prayers for the church and for all men of all state conditions are sung. The church prays for the pope, bishops, priests, rulers, catechumens; the erring, sick hungry, those in prison, for travelers, and those at sea; for heretics and schismatics, for the Jews and for the heathen. She wishes to reveal her charity to all mankind and her motherly arms. She imitates the example of her divine founder, who on this day, hanging upon the cross with out-stretched arms, wished to draw all mankind to Him, and redeem them. She teaches us the great lesson of forgiving our enemies."

Want to Feel Young?

It's Olive Tablets For You!

Beware of the habit of constipation. It develops from just a few constipated days, especially in old people, unless you take yourself in hand.

Coax the jaded bowel muscles back to normal action with Dr. Edwards' Olive Tablets, the substitute for calomel. Don't force them to unnatural action with severe medicines or by merely flushing out the intestines with nasty, sickening cathartics.

Dr. Edwards believes in gentleness, persistency and nature's assistance.

Dr. Edwards' Olive Tablets oil the bowels; their action is gentle, yet positive. There is never any pain or griping when Olive Tablets are used. Just the kind of treatment old persons should have.

Take Olive Tablets mixed with olive oil and have no trouble with your bowels or stomach.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box. The Olive Tablet Co., Columbus, Ohio.

No man is Stronger Than his Stomach

The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y. answers hosts of delicate questions about which every man or woman, single or married ought to know. Sent free on receipt of 31 one-cent stamps to pay for wrapping and mailing.

LET the greatest athlete have dyspepsia and his strength will soon fail. One's stamina—forcefulness and strength of mind or muscle depend upon the blood, and the blood in turn, requires a healthy stomach, for the stomach is the laboratory where the food is digested and such elements are taken up—or assimilated—which make blood. In consequence all the organs of the body, such as heart, lungs, liver and kidneys, as well as the nervous system, feel the bad effect if the stomach is deranged.

Dr. Pierce's Golden Medical Discovery

helps the stomach to digest food properly, starts the liver into new activity, removing the poisons from the blood, and the various organs get rich, red blood, instead of being ill nourished. The refreshing influence of this extract of native medicinal plants has been favorably known for over 40 years. Everywhere some neighbor can tell you of the good it has done.

Sold by all medicine dealers in liquid or tablet form; or send 50 one-cent stamps to Dr. Pierce, Invalids' Hotel, Buffalo, and a trial box will be mailed you.

FARMS IN MODERN WAY.

Phil Jockisch of Cass County Will Use Traction For Plowing.

Phil Jockisch, one of the progressive farmers in the vicinity of Bluff Springs, will do his farming this spring according to the most up-to-date methods. Oswald Jockisch, his son, recently purchased a four cylinder, 30-horse power gasoline tractor, with a gang of four plows, and the outfit will be used instead of the old method in the work this spring.

Mr. Jockisch expects to add other farm machinery to the plows and will do as much of the farm work as possible with gasoline power instead of animal power.

The new machine doesn't travel as fast as a pleasure car, but when its set in high speed she moves along at the rate of three miles per hour, and plows four furrows at a time.

Ask Garland & Co. to show you their \$2.50 special hat in all styles.

CONDEMNATION SUIT.

Condemnation proceedings were filed in the county court Friday by Kirby, Wilson & Baldwin on behalf of the C. B. & Q. railroad against certain land owners in Franklin. The road desires to acquire a strip of land thirty feet wide and 1152.8 feet long, presumably to aid in laying a double track through Franklin. The hearing is set for April 10 and the court is asking to have veniremen ready for the trial at that time. The title of the case is C. B. & Q. R. R. vs. M. B. Keplinger as executor of the will of W. J. Wyatt, Sallie Wyatt, G. W. Wyatt, Ella F. Wyatt, Mary L. Seymour, G. W. Wyatt, Litchfield Foundry Co., F. L. Sharpe & Co., Macomber & Whyte Rope Co.

Many people enjoy giving Easter greetings as much as any remembrance of the year. For those wishing Neckwear of style and quality FRANK BYRNS has provided a handsome assortment.

WINS SUIT AGAINST ALTON.

John D. Mattocks, formerly a brakeman in the employ of the Chicago & Alton Railway company, who brought suit against the railway for the loss of one of his limbs, was awarded a judgment of \$4,000 in the branch court in Peoria by the jury that heard the evidence.

Mattocks brought suit for \$10,000 damages. According to the evidence, he was employed as a brakeman and got under the wheels of a train at Nevada, Ill., a number of months ago. He claimed the accident was due to the negligence of the company. Attorneys Weil, Bartley and Weiss were counsel for the plaintiff and Attorneys Miller and Elliott represented the company.

RAILROADS NOTES.

Rumor has it that Charles S. Mellen will retire as president of the New York, New Haven and Hartford railroad at the end of this year and be succeeded by Howard Elliott, president of the Northern Pacific. Elliott went from the Burlington in St. Louis and Chicago to take the place which Mr. Mellen left vacant on the Northern Pacific when J. P. Morgan called him from the northwest to preside over the destinies of what finally became the most unpopular railroad in the United States. It is understood that Mr. Mellen is tired of his job and that the decision to finally reduce the dividend on the stock, against which he fought for years, leaves him in a somewhat solitary position as to policies for the future.

Mr. Elliott has been president of the Northern Pacific for about eight years. In that time the road has practically divorced itself from Hill control, and the recognized authorities in the property today are J. P. Morgan & Co. and the First National bank. Mr. Elliott is of New England birth and has a high standing all through the territory in which the New Haven operates. Two years ago he was the choice of one element for presidency of the Missouri Pacific. He declined the offer, which afterward went to B. F. Bush.

Maintenance operations upon the Chicago and Alton have been placed upon the summer basis, the earliest in twenty years, and with the prospects of an early spring, the company is planning to complete the major portion of the betterments outlined, by early fall. Sections have been supplied with ten men each, the largest force in the history of the company, while many extra gangs of fifty men each have been placed in service, laying steel, distributing ties and overhauling bridges. The Union Pacific is assisting the Alton financially and it is likely that \$5,000,000 will be expended this year in various betterments and additional locomotives and cars.

The Illinois Central has prepared plans for the extension of its four-track system from Matteson to Kankakee, a distance of twenty-eight miles, making the total length of the four tracks from Chicago to Kankakee, sixty-five miles. Two tracks will be reserved for passenger and two for freight. Work will be commenced about April 1.

SOCIAL EVENTS.

Mrs. George E. Matthews will entertain at her home, 215 Webster avenue, Wednesday, March 27, for Miss Emilene Brown and Miss Marjorie McArthur.

The Delta Sigma Sunday school class of the Central Christian church which is taught by Miss Pearl Jewsbury was delightfully entertained Friday evening by Misses Marie Corrington and Dorothy Weber at the home of the former on Pine street. The following program was given:

Piano solo—Hazel Claus.
Reading—Helen Harney.
Piano duet—Mardelle McDougall and Dorothy Weber.
Vocal duet—Bess Pyatt and Grace Wood.
Piano solo—Pearl Jewsbury.

The South Side circle met Friday afternoon at the home of Mrs. Herman Weber on South Main street. The program was in charge of Mrs. Barlow McIntyre, who read a splendid paper on "The White Slave Traffic," which was followed by a general discussion of the subject. The circle greatly enjoyed two solos given by Mrs. C. F. Ehnie and Mrs. Julia Hall.

MORGAN AND GUGGENHEIMS MENTIONED IN FROST TRIAL

Names Are Brought Into Trial by Attorney For Defense of Albert C. Frost For Alleged Alaskan Coal Frauds.

Chicago, March 21.—The names of J. P. Morgan and the Guggenheims were today brought into the trial of Albert C. Frost and four others for alleged Alaskan coal frauds by Albert Fink, attorney for the defense.

C. D. Hamel, special agent for the government, was put on the stand to give names of persons affiliated with Frost.

"What was the attitude of the general land office in regard to taking out coal claims?" he was asked. The question was objected to.

"If the defense has any evidence of conspiracy it cannot be brought out on cross-examination," ruled Judge Landis.

"I don't want to charge any one with conspiracy," replied Fink, "in the absence of proof, but there are suspicious circumstances indicating this trial is being managed in the interests of Morgan and the Guggenheim outfit, with the view of driving independent mine operators out of the country."

"You will have the assistance of the court in bringing these witnesses to testify," asserted the court.

Hamel read a long list of persons who were locators of Alaskan claims, all of whom are said to have been in some one way associated with Frost.

The government produced a letter Frost wrote in 1907 to Arthur Storrs, a mining expert. It read in part:

"I have recently acquired options on the most valuable coal claims in Alaska and I am acquiring the remainder of the coal claims in the district in which properties I would like to have examined early this fall."

WORK IS COMPLIMENTED.

Miss Amanda Kidder, dean of the department of expression at the Woman's college gave a recital recently in Pekin, Ill. The Pekin Times in speaking of her work says:

"Miss Kidder's work here proved a revelation. She is an artist of great ability. Her recital of the 'Passing of the Third Floor Back' was a most artistic work. She portrayed ten different characters true to life. Then she suddenly transformed those characters into different beings. It was as if a fairy had swung her magic wand and changed the dissatisfied people into pure, upright and law abiding God fearing men and women. This practically compelled Miss Kidder to give a delineation of twenty characters. Her work was thoroughly enjoyed and appreciated by the audience. Miss Kidder has received numerous offers for dramatic work and is certainly a lady of wonderful versatility."

IDENTIFY SLAYER OF MRS. REED

Colorado Murderer-Suicide Was Cecil Dickens, Whose Residence Is Given As Jacksonville.

A dispatch from Denver, Colo., states that the man who shot Mrs. Reed and then committed suicide recently, was Cecil Dickens of this city, who had gone under the name of E. H. Reed since going to Colorado. The dispatch also states that Dickens, his wife, seven-year-old daughter and Miss Oleta Radford went to Colorado about three months ago for Mrs. Dickens' health, she being afflicted with asthma and that Dickens' father is N. J. Dickens of Champaign.

Miss Radford is a daughter of Ham Radford, who resides near Murrayville and her brother, Charles Radford, left yesterday for Denver, Colo., to investigate the affair.

ICE FAMINE IN NEW YORK.

New York, March 21.—New York city is facing an ice famine, according to Wesley Oler, president of the Knickerbocker ice company. "There is a total of 1,161,000 tons on hand for the summer," said Mr. Oler. "Last year the consumption in New York alone was 2,200,000 tons.

MORTUARY

Meredith.

The funeral services of J. G. Meredith were conducted Friday afternoon at 1:30 o'clock from the Christian church in Franklin, in charge of Rev. Peter Kittel assisted by Rev. J. E. Teany. Music was furnished by the church choir and the beautiful flowers were kindly cared for by Misses Mildred and Mabel Jones of Murrayville and Miss Marie Dodsworth of Murrayville, nieces of the deceased and Mrs. August Walters.

Interment was made in the Davis cemetery at Clements and the active bearers were Fred Burch, Glenn Harney, Charles Ransdall, John Bland, Oyer Wright and W. G. Wright. The honorary bearers all old soldiers were, H. G. Keplinger, John Whitlock, Alec Whitlock, J. F. Dougherty, James Rountree and Wesley Cross.

Among the relatives to attend the funeral services were: F. L. Meredith of Tulsa, Okla., George Dunston, Paris, Mo., Dale and Thomas Chambers of Watertown. Others who attended were Miss Milton Kelly and daughter Marie, Mr. and Mrs. John Jones and Mrs. George Spires of Jacksonville; Rees Jones and daughter of Murrayville; Mrs. Nell Graham of Ashland; Mr. and Mrs. Harvey Conlee and W. E. Barrows of Waverly.

Cade.

The funeral services of William Cade were conducted Friday morning at 10 o'clock from the Christian church in Woodson, in charge of Dr. G. W. Miller, assisted by Rev. Harry Smith. Music was furnished by a quartet composed of Mrs. John Henry Miss Meda Gallagher, Edward Gallagher and Dr. R. R. Jones.

Interment was made in the Bethel cemetery and the bearers were Messrs. Edward Bradley, John Bleming, T. E. Rea, Thomas Story, Charles Harney and C. C. Self.

Weaver.

Word was received in the city last night by relatives announcing the death of Mrs. Kitty Weaver, who passed away at her home in Springfield Friday night at 11 o'clock. Mrs. Weaver was the mother of Mrs. A. H. Atherton of this city. Mrs. Atherton received a message Friday afternoon stating that her mother had taken suddenly ill while preparing to go out, and Mrs. Atherton went to Springfield on the evening train. Aside from Mrs. Atherton the deceased is survived by one daughter, Mrs. Emma Hoagg of Wagner, Okla. Mr. Atherton went to Springfield this morning at 1:48 o'clock to attend the funeral.

PASSION WEEK SERVICES AT MURRAYVILLE CHURCH.

The Passion week services at the M. E. church at Murrayville, under the leadership of Rev. J. A. Biddle, the pastor, have proved most helpful and inspiring. The members of the W. C. T. U. had charge of the services last night and the Rev. C. F. Cusick gave a splendid temperance address. Mrs. Luella Henry of Woodson gave a reading, Mrs. Brewer Rimby, a solo, Miss Florence Short and Fay Ketner a duet. Mrs. C. T. Daniels presided. There was also a contest last night between the men and women as to attendance. There was present 92 men and 97 women.

Sunday at both the morning and evening worship there will be services bearing upon the Easter thought.

The services Thursday evening were under the auspices of the Ladies Aid Society. A number of songs were given and a member told a brief history of the organization. The rostrum was prettily decorated with carnations and each member wore a flower. Rev. Hy S. Alkire preached the sermon on the subject: "The Supreme Test."

MRS. D. W. OSBORNE SR., DIES SUDDENLY AT HOME IN MISSOURI

Mother of J. T., D. W., and C. A. Osborne of This City Passes Away—Was Native of Jacksonville.

Relatives in the city received a telegram Friday afternoon announcing the death of Mrs. D. W. Osborne Sr., who died rather suddenly Friday afternoon at 1 o'clock at her home in Lathrop, Mo. Word was received just a few days ago from her stating that she was in good health and the announcement of her death Friday afternoon, without any word that she was sick, was quite a shock to the members of the family.

Mrs. Osborne, whose maiden name was Ellen Hedington, was born in Jacksonville, April 8, 1829 and attended the old Presbyterian Academy in this city. She was married in Jacksonville in 1845 to D. W. Osborne, who preceded her in death thirteen years ago. Until thirty years ago the family resided in this county, and at that time sold their farm near Alexander and moved to Missouri. The deceased is survived by the following children: J. T., D. W., and C. A. Osborne of this city, Mrs. Eugene Hockaday, Mrs. Newton McWilliams and M. S. Osborne of Tacoma, Wash., Mrs. W. E. Grant of Hardin, Mo., and G. W. Osborne at home. She is also survived by one brother, Rev. J. A. Hedington, of Mexico, Mo. Mrs. Osborne was a member of the Christian church and was a woman who was admired by a wide circle of friends.

D. W. Osborne and J. T. Osborne went to Lathrop Friday evening and C. A. Osborne will leave for that place this morning to attend the funeral which is to be held Sunday.

SPRING ARRIVES ON WINGS OF STORMS

(Continued From Page One.)

til further notice and every precaution was being taken to prevent possible loss of life.

Many Deaths in South. Louisville, Ky., March 21.—Reports coming into the centers of population in the south by crippled telegraphic and telephone wires, and by courier tonight, indicate that the death list as a result of last night's storm will be about fifty. Many sections known to have suffered have not been heard from. Alabama was the worst sufferer, twenty-seven persons being killed when the town of Lower Peach Tree was wiped out. Three deaths have been reported in Tennessee but not confirmed, five lost their lives in Mississippi, two in Louisiana, and one in Texas. In Mississippi today the governor was authorized to borrow \$5,000 for the relief of sufferers from a storm that devastated a part of the state only ten days ago. The storm spread over a wide area, demoralizing wire communication. Parts of the south soon were cut off and for a time all wire communication south of Louisville was suspended. Little progress was made until about noon today, when an intermittent service was established between the principal cities. Between Nashville and Chattanooga 94 poles of one telegraph company were blown down and three miles of its wires destroyed.

Hundreds of persons whose homes were made uninhabitable felt keenly the added discomfort caused by a sharp drop in temperature, which in some places was as much as 30 degrees.

Damage in Joliet.

Joliet, Ill., March 21.—This city was cut off from the world for seven hours during today's storm. The Alton and Santa Fe roads have many miles of wires and poles down. Stoppage of business cost, it is estimated, more than \$200,000.

Many Injured and Missing. Columbus, O., March 21.—Three persons known to be dead, a score missing and unaccounted for, several score injured and property damage estimated at considerably in excess of \$1,000,000 is a summary of the damage by the storm today.

William Wicks, aged 75, was killed when the smoke stack at the county infirmary fell. In Columbus, Richard Plimmer, contractor, was killed when the walls of a brick building on which he was worked was blown down, burying him and three other workmen.

Nicholas Boyer, a painter in Cleveland, was killed when he was blown from a scaffold. Great havoc was wrought in the oil fields.

Fishermen Saved. Sandusky, O., March 21.—Four fishermen caught in Lake Erie off Kelly Island today while a sixty mile gale was at its height, were rescued by life savers.
